PRODUCT LEAFLET

Mount for Interactive whiteboard

152.0020 Mount for (interactive) whiteboard max. 100 inch

This adapter set can be combined with one of the in height adjustable trolleys (062.727x, 062.729x), floor/wall lifts (052.7200) or with the wall mount 152.0010. This creates a fixed or in height adjustable solution for optimal use of your presentation tool. The mounting arms are fully adjustable in length and depth for a perfect fit of your (interactive) whiteboard (max. 100 inch). On top of these arms a universal mounting plate is placed for mounting an (ultra) short throw projector. The projector plate is in height adjustable. When mounting the adapter set on a trolley the projector can be tipped forward so that the whole solution can fit through a doorway easily.
